Subject: heard it all before

conduct remedies? criminal penalties and civil fines? are you serious? has any of this ever stopped microsoft before? what makes you think it will now? fines don't scare them. court proceedings don't. they just bide their time and wait for everyone else to grow tired of proceeding, then they pick up where they left off. as they will again. and you let them off the hook. again.

A computer lets you make more mistakes faster than any other human invention in history...
..with the possible exception of handguns and tequila.
